

Acceptable Use of ICT Policy

Board Approved Date	July 2017
Version	0.1
Author Initials	MS
Review Date	March 2020

(This policy supersedes all previous Acceptable Use of ICT Policy)

Article 3 (Best interests of the child): The best interests of children must be the primary concern in making decisions that may affect them. All adults should do what is best for children. When adults make decisions, they should think about how their decisions will affect children. This particularly applies to budget, policy and law makers.

Article 13 (Freedom of expression): Children have the right to get and share information, as long as the information is not damaging to them or others. In exercising the right to freedom of expression, children have the responsibility to also respect the rights, freedoms and reputations of others.

Article 16 (Right to privacy): Children have a right to privacy. The law should protect them from attacks against their way of life, their good name, their families and their homes.

Article 15 (Freedom of association): Children have the right to meet together and to join groups and organisations, as long as it does not stop other people from enjoying their rights. In exercising their rights, children have the responsibility to respect the rights, freedoms and reputations of others.

Background/Rationale

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school.

The internet and other digital and information technologies are powerful tools, which open up opportunities for everyone. Electronic communication helps teachers and pupils learn from each other. These technologies can stimulate discussion, promote creativity and increase awareness of context to promote effective learning. Children and young people should have an entitlement to safe internet access at all times.

The requirement to ensure that children and young people are able to use the internet and related communications technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. A school e-safety policy should help to ensure safe and appropriate use. The development and implementation of such a strategy should involve all the stakeholders in a child's education from the Headteacher and governors, to the senior leaders and classroom teachers, support staff, parents, members of the community and the pupils themselves.

The use of exciting and innovative tools in school and at home has been shown to raise educational standards and promote pupil achievement.

However, the use of these technologies can put young people at risk within and outside the school. Some of the dangers they may face include:

- Access to illegal, harmful or inappropriate images or other content
- Unauthorised access to / loss of / sharing of personal information
- The risk of being subject to grooming by those with whom they make contact on the internet.
- The sharing / distribution of personal images without an individual's consent or knowledge
- Inappropriate communication / contact with others, including strangers
- Cyber-bullying
- Access to unsuitable video / internet games
- An inability to evaluate the quality, accuracy and relevance of information on the internet
- Plagiarism and copyright infringement
- Illegal downloading of music or video files
- The potential for excessive use which may impact on the social and emotional development and learning of the young person.

Many of these risks reflect situations in the off-line world and it is essential that this e-safety policy is used in conjunction with other school policies (e.g. behaviour, anti-bullying and child protection policies).

As with all other risks, it is impossible to eliminate those risks completely. It is therefore essential, through good educational provision to build pupils' resilience to the risks to which they may be exposed, so that they have the confidence and skills to face and deal with these risks.

Education South West demonstrates that it has provided the necessary safeguards to help ensure that they have done everything that could reasonably be expected of them to manage and reduce these risks. The e-safety policy that follows explains how we do this, while also addressing wider educational issues in order to help young people (and their parents / carers) to be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.

Development / Monitoring / Review of this Policy

This Acceptable Use Policy was developed by a group made up of:

- Senior Leaders
- School E-Safety Coordinator
- Teachers
- Support Staff
- IT Services Team
- Governors

Consultation with the whole school community has taken place through the following:

- ICT Strategy meetings
- Pupil Council
- Tutorial Day
- Governors meeting
- Staff Consultative Committee
- Parents evening
- School website / questionnaire

Schedule for Development / Monitoring / Review

This updated e-safety policy was approved by the Education South West Board on:	May 17
The implementation of this e-safety policy will be monitored by the:	Senior Leadership Team and IT Services Team
Review will take place at regular intervals or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place.	Every 3 years
The next anticipated review date will be:	January 2020
Should serious e-safety incidents take place, the following external persons / agencies may be consulted:	LA ICT Manager, LA Safeguarding Officer, Police Commissioner's Office, Social Services Child Protection Team

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Logs of internet activity (including sites visited) using Smoothwall or similar
- Questionnaires of
- pupils (e.g. CEOP ThinkUknow survey)
- parents / carers
- staff

Scope of the Policy

This policy applies to all members of the school community (including staff, pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of school.

The Education and Inspections Act 2006 empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place out of school, but is linked to membership of the school.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the roles and responsibilities for e-safety of individuals and groups within the school:

Governors:

Governors are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Local governing body receiving information about e-safety incidents and monitoring reports. A member of the Governing Body is responsible for ICT which includes:

- Monitoring of e-safety incident logs
- Monitoring of filtering / change control logs
- Reporting to relevant Governors meeting

Headteacher and Senior Leadership Team (SLT):

- The Headteacher is responsible for ensuring the safety (including e-safety) of members of the school community.

- The Headteacher / SLT are responsible for ensuring that relevant staff receive suitable CPD to enable them to carry out their e-safety roles and to train other colleagues, as relevant
- The Headteacher / SLT will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles. Through our induction programme those responsible for e-Safety will be kept up to date with current practices. SLT will be responsible for disseminating updates on policy and practice
- The SLT will receive monitoring reports from the IT Services Team.
- The Headteacher / SLT should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff. (see flow chart on dealing with e-safety incidents on page 14 of this policy)
- Ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- Provides training and advice for staff

IT Services Manager:

are responsible for ensuring:

- That the school's ICT infrastructure is secure and is not open to misuse or malicious attack
- That the school meets the e-safety technical requirements outlined in the SWGfL Security Policy and Acceptable Usage Policy and any relevant Local Authority E-Safety Policy and guidance
- That users may only access the school's networks through a properly enforced password protection policy, in which passwords are regularly changed
- The school's filtering policy, is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- That they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- That monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff:

are responsible for ensuring:

- They have an up to date awareness of e-safety matters and of the current school e-safety policy and practices

- They have read, understood and signed the school Staff e-safety and ICT Acceptable Use Policy (AUP)
- They report any suspected misuse or problem to the Safeguarding Officer for investigation / action / sanction
- Digital communications with pupils (email / Virtual Learning Environment / voice) should be on a professional level and only carried out using official school systems
- E-safety issues are embedded in all aspects of the curriculum and other school activities
- Pupils understand e-Safety and follow the school Acceptable Use Policy
- Pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- They monitor ICT activity in lessons, extracurricular and extended school activities
- They are aware of e-safety issues related to the use of mobile phones, cameras and hand held devices and that they monitor their use and implement current school policies with regard to these devices
- In lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use

Child Protection Officers:

Should be trained in e-safety issues and be aware of the potential for serious child protection issues to arise from:

- Sharing of personal data
- Access to illegal / inappropriate materials
- Inappropriate on-line contact with adults / strangers
- Potential or actual incidents of grooming
- Cyber-bullying

Pupils:

are responsible for:

- Using the school ICT systems in accordance with the Pupil e-safety and ICT Acceptable Use Policy, which they will be expected to sign before being given access to school systems.
- Have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- Need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so

- Will be expected to know and understand school policies on the use of mobile phones, digital cameras and hand held devices. They should also know and understand school policies on the taking / use of images and on cyber-bullying.
- Should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the school's E-Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. Research shows that many parents and carers do not fully understand the issues and are less experienced in the use of ICT than their children. The school will therefore take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / VLE and information about national / local e-safety campaigns / literature. Parents and carers will be responsible for:

- endorsing (by signature) the Pupil e-safety and ICT Acceptable Use Policy
- accessing the school website / VLE / on-line pupil records in accordance with the relevant school Acceptable Use Policy.

Community Users

Community Users who access school ICT systems / website / VLE as part of the Extended School provision will be expected to sign a Community User AUP before being provided with access to school systems.

Policy Statements

Education - Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in e-safety is therefore an essential part of the school's safety provision. Children and young people need the help and support of the school to recognise and avoid e-safety risks and build their resilience.

E-Safety education will be provided in the following ways:

- A planned e-safety programme should be provided as part of ICT and should be regularly revisited – this will cover both the use of ICT and technologies in school and outside school
- Key e-safety messages should be reinforced as part of a planned programme of assemblies and ThinkuKnow training

- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information
- Pupils should be helped to understand the need for the pupil AUP and encouraged to adopt safe and responsible use of ICT, the internet and mobile devices both within and outside school
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Rules for use of ICT systems / internet will be posted in all rooms and displayed on log-on screens
- Staff should act as good role models in their use of ICT, the internet and mobile devices

Education – Parents / Carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line experiences. Parents often either underestimate or do not realise how often children and young people come across potentially harmful and inappropriate material on the internet and are often unsure about what they would do about it. "There is a generational digital divide". (Byron Report).

The school will therefore seek to provide information and awareness to parents and carers through:

- Letters, web site, VLE
- Parents evenings

Education – Extended Schools

The school will offer family learning courses in ICT, media literacy and e-safety so that parents and children can together gain a better understanding of these issues. Messages to the public around e safety should also be targeted towards grandparents and other relatives as well as parents. Everyone has a role to play in empowering children to stay safe while they enjoy these new technologies, just as it is everyone's responsibility to keep children safe in the non-digital world.

Education and Training - Staff

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- E-safety training will be made available to staff.

- All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Policies
- The Safeguarding Officer will share updates received from SWGfL / LA / CEOP/ other information and other relevant guidance documents
- This E-Safety policy and any updates will be made available to staff via the VLE or shared drive policies folder.
- The IT Services Team and Safeguarding Officer will provide advice / guidance / training as required to individuals as required

Training - Governors

Governors should take part in e-safety training / awareness sessions, with particular importance for those who are members of any subcommittee / group involved in ICT / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / SWGfL or other relevant organisation.
- Participation in school training / information sessions for staff or parents

Technical – Infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people in the named positions in the above sections will be effective in carrying out their e-safety responsibilities:

- School ICT systems will be managed in ways that ensure that the school meets the e-safety technical requirements outlined in the SWGfL Security Policy and Acceptable Usage Policy and any relevant Local Authority E-Safety Policy and guidance
- There will be regular reviews and audits of the safety and security of school ICT systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school ICT systems. Details of the access rights available to groups of users will be recorded by the Network Manager and will be reviewed.
- All users will be provided with a username and password by the IT Services Team who will keep an up to date record of users and their usernames.

- The “master / administrator” passwords for the school ICT system, used by the IT Services Team must also be available to the Headteacher or other nominated senior leader and kept in a secure place
- Users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- The school maintains and supports the managed filtering service
- The school has provided enhanced user-level filtering through the use of the Smoothwall (or similar) filtering programme.
- In the event of the IT Services Team needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher (or other nominated senior leader).
- Any filtering issues should be reported immediately to the IT Services Team.
- Requests from staff for sites to be removed from the filtered list will be considered by the IT Services Team and if needed SLT. If the request is agreed, this action will be recorded and logs of such actions shall be reviewed regularly by SLT
- An appropriate system is in place (identified on page 14) for users to report any actual / potential e-safety incident to IT Services Manager / SLT / Safeguarding Officer
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, hand held devices etc from accidental or malicious attempts which might threaten the security of the school systems and data.
- An agreed policy is in place for the provision of temporary access of “guests” (e.g. trainee teachers, visitors) onto the school system.
- An agreed policy is in place regarding the downloading of executable files by users
- An agreed policy is in place regarding the extent of personal use that users (staff / pupils / community users) and their family members are allowed on laptops and other portable devices that may be used out of school.
- An agreed policy is in place that forbids staff from installing programmes on school workstations / portable devices.
- An agreed policy is in place regarding the use of removable media (e.g. memory sticks / CDs / DVDs) by users on school workstations / portable devices.

- The school infrastructure and individual workstations are protected by up to date virus software.
- Sensitive data must not be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Curriculum

e-Safety should be a focus in all areas of the curriculum and staff should reinforce e-safety messages in the use of ICT across the curriculum.

- In lessons where use of internet planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, e.g. using search engines, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, pupils may need to research topics (e.g. racism, drugs and discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the IT Services Team can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet.

Use of digital and video images – Photographic, Video

The digital imaging technologies bring significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded. Staff and pupils should be aware of the risks associated with sharing images and with posting digital images online.

Those images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. There are many reported incidents of employers carrying out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.

- Staff are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website covered as part of the AUP signed by parents or carers at the start of the year (see Parents / Carers AUP Agreement)
- Pupil's work can only be published with the permission of the pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.

- Transfer data using encryption and secure password protected devices.
- Ensure that computers are not left unlocked whilst unattended
- Under no circumstances allow pupils access to computers/laptops under staff logins

When personal data is stored on any portable computer system, USB stick or any other removable media:

- The device must be password protected (many memory sticks / cards and other mobile devices cannot be password protected)
- The device must offer approved virus and malware checking software
- The data must be securely deleted from the device, in line with school policy once it has been transferred or its use is complete

Communications

Rapidly developing communication technologies have the potential to enhance learning. The following table shows how the benefit of using these technologies for education outweighs their risks / disadvantages:

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure. Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access).
- Users need to be aware that email communications may be monitored
- Users must immediately report, to the Safeguarding Officer or SLT – in accordance with the school policy, the receipt of any email that makes them feel uncomfortable, is offensive, threatening or bullying in nature and must not respond to any such email.
- Any digital communication between staff and pupils or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or public chat / social networking programmes must not be used for these communications (including Facebook, MySpace, Bebo, etc).
- Pupils at KS3, KS4 and KS5 will be provided with individual school email addresses for educational use.
- Pupils should be taught about email safety issues, such as the risks attached to the use of personal details. They should also be taught strategies to deal with inappropriate emails and be reminded of the need

to write emails clearly and correctly and not include any unsuitable or abusive material.

- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Communications

	Staff & other adults			Pupils		
	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Communication Technologies						
Mobile phones may be brought to school	X			X		
Use of mobile phones in lessons		X		X		
Use of mobile phones in social time	X			X		
Taking photos on mobile phones or other camera devices		X			X	
Use of hand held devices eg PDAs, PSPs	X					X
Use of personal email addresses in school, or on school network	X					X
Use of school email for personal emails	X			X		
Use of chat rooms / facilities			X			X
Use of instant messaging			X			X
Use of social networking sites		X		X		
Use of blogs			X			X

Unsuitable / inappropriate activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts certain internet usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	child sexual abuse images					X
	promotion or conduct of illegal acts, eg under the child protection, obscenity, computer misuse and fraud legislation					X
	adult material that potentially breaches the Obscene Publications Act in the UK					X
	criminally racist material in UK					X
	pornography				X	
	promotion of any kind of discrimination				X	
	promotion of racial or religious hatred				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	

	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
	Using school systems to run a private business				X	
	Use systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by SWGfL and / or the school				X	
	Uploading, downloading or transmitting commercial software or any copyrighted materials belonging to third parties, without the necessary licensing permissions				X	
	Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X	
	Creating or propagating computer viruses or other harmful files				X	
	Carrying out sustained or instantaneous high volume network traffic (downloading / uploading files) that causes network congestion and hinders others in their use of the internet				X	
	On-line gaming (educational)	X				
	On-line gaming (non educational)				X	
	On-line gambling				X	
	On-line shopping / commerce			X		
	File sharing				X	
	Use of social networking sites		X			
	Use of video broadcasting eg Youtube			X		

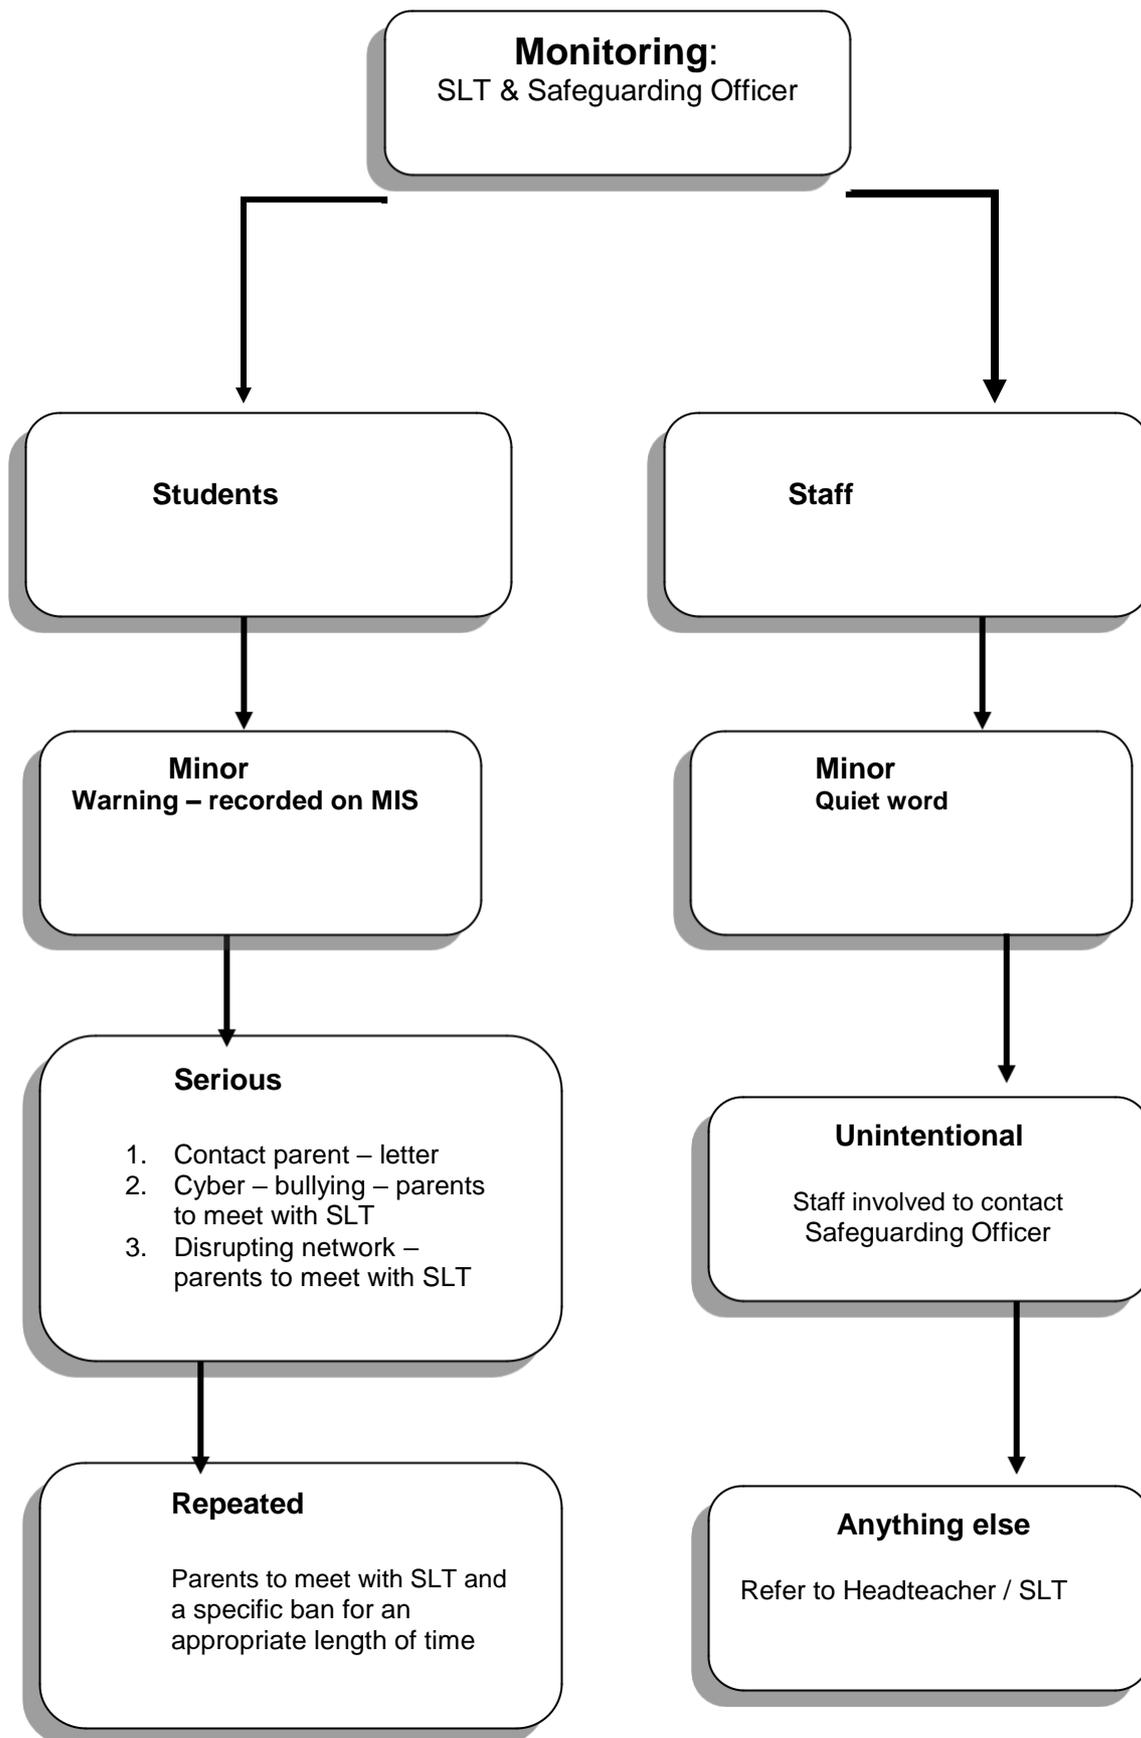

Responding to incidents of misuse

It is hoped that all members of the school community will be responsible users of ICT, who understand and follow this policy. However, there may be times when infringements of the policy could take place, through careless, irresponsible or, very rarely, through deliberate misuse. Listed below are the responses that will be made to any apparent or actual incidents of misuse:

If any apparent or actual misuse appears to involve illegal activity ie.

- Child sexual abuse images
- Adult material which potentially breaches the Obscene Publications Act
- Criminally racist material
- Other criminal conduct, activity or materials

The flow chart – (Page no 15) below and should be consulted and actions followed in line with the flow chart, in particular the sections on reporting the incident to the police and the preservation of evidence.

If members of staff suspect that misuse might have taken place, but that the misuse is not illegal (as above) it is essential that correct procedures are used to investigate, preserve evidence and protect those carrying out the investigation. In such event the SWGfL "Procedure for Reviewing Internet Sites for Suspected Harassment and Distress" should be followed. This can be found on the SWGfL Safe website within the "Safety and Security booklet". This guidance recommends that more than one member of staff is involved in the investigation which should be carried out on a "clean" designated computer.

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Pupils

Incidents:	Log sent to e-Safety	Coordinator, SLT & Network Manager	Refer to Headteacher	Refer to Police (nature of offence)	Refer to IT Services Team (action filtering/security etc)	Dealt with by class teacher	Inform parents / carers	Warning / notes on Sims	Removal of network / internet access (point lights/portable devices)	Further action e.g. referral (action/egadvice/force)	Refer to Pupil Support	Refer to SLT
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section).	X	X	X	X	X	X	X	X	X	X	X	
Deliberately accessing or trying to access material that could harm or interrupt the network system or other users	X	X		X	X	X	X	X	X	X	X	
Unauthorised use of non-educational sites during lessons	X			X	X		X			X		
Unauthorised use of mobile phone / digital camera / other handheld device such as sending an email, text or instant message that is regarded as offensive, harassment or of a bullying nature	X					X	X	X		X	X	X
Unauthorised use of social networking / instant messaging / personal email	X					X	X	X		X	X	
Unauthorised downloading or uploading of files from other mediums	X			X	X	X	X			X	X	
Allowing others to access school network by sharing username and passwords	X			X		X	X			X		
Attempting to access or accessing the school network, using another pupil's account	X			X		X	X			X		
Attempting to access or accessing the school network, using the account of a member of staff	X			X		X	X	X		X		
Corrupting /destroying data of other users	X			X		X	X	X		X	X	
Continued infringements of the above, following previous warnings or sanctions	X	X		X		X	X	X	X	X	X	X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	X	X				X	X	X	X	X	X	
Using proxy sites or other means to subvert the school's filtering system	X			X		X	X	X	X	X	X	
Accidentally accessing offensive or pornographic material and failing to report the incident	X					X		X		X		
Deliberately accessing or trying to access offensive or pornographic material	X	X	X	X	X	X	X	X	X	X	X	

Receipt or transmission of material that infringes Copyright Law/ Data Protection Act	X	X	X	X	X	X	X	X	X
