

Staff Acceptable Use of IT Agreement

September 2018

Version	0.1
Author Initials	ZW
Review Date	September 2021

This Agreement is intended to complement and be an Annex to the ESW Staff Acceptable Use Policy

Staff Acceptable Use Policy Agreement

Policy Context

This Acceptable Use Agreement for staff is intended to ensure that:

- Staff are responsible users and stay safe while using technologies
- School ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- Staff are protected from potential risk from the use of ICT in their everyday work and work to ensure that young people in their care are safe users.

This policy agreement is designed to draw out the employee specific aspects of the ESW Staff Acceptable Use Policy and complements the actions within it.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems, other users and pupils.

Keeping Safe

- The official school email service may be regarded as safe and secure. Therefore I know that I must only use the school email service to communicate with others when in school, or on school systems (e.g. by remote access).
- I know that the school can monitor my use of the school ICT systems and communications.
- I know that I may only access the school's networks through a properly enforced password protection policy, in which passwords are regularly changed.
- I will ensure that I follow the password policy for staff ensuring my passwords have at least 8 characters and that my password contains complexity requirements i.e., uppercase lowercase number and special character.
- I will only use my own user names and passwords which I will choose carefully so they cannot be guessed easily. I will be vigilant about allowing other users to access the systems using my log on details.
- I will not write my password down.
- I will ensure that my computer/laptop is not left unlocked whilst unattended and I will lock my screen (shortcut – windows button+L or Ctrl+Alt+Delete).
- I will not engage in any on-line activity that may compromise my professional responsibilities or compromise the reputation of the school or its members.
- I understand that where personal/sensitive data is transferred outside the secure school network I will ensure I use encryption and secure password protected devices.
- For this, I will ensure I use Office 365 Encrypt for sensitive personal data that I email to people/organisations outside of Education South West.
- I will ensure I use encrypted portable hard drives only and only use them if essential.
- I will ensure I save files onto ESW servers as priority and realise that this includes **not** saving files / personal data to the hard drive (C drive) of my computer/laptop.
- I will only use my personal ICT in school for permissible activities and I will follow the rules set out in this agreement.

- Under no circumstances will I allow pupils access to computers/laptops under staff logins
- I will ensure that any emails or files kept on my home devices, including my mobile phone, will be wiped/deleted (including email mailboxes) before I leave employment or if I no longer own the device.
- I will not download or back up files that contain personal information (i.e. any information with at least first name, last name or any other two identifiers) to my own personal devices/personal computers at home.
- I understand that I must immediately report, to the Safeguarding Officer or SLT – in accordance with the school policy - the receipt of any email that makes me feel uncomfortable, is offensive, threatening or bullying in nature and must not respond to any such email.

Promoting Safe Use by Learners

- E-safety issues are embedded in all aspects of the curriculum and other school activities.
- I understand that I need to have an up to date awareness of e-safety matters and of the current school e-safety policy and practices
- I will model safe use of technologies and the internet in school.
- I will educate young people on how to use technologies safely according to the school teaching programme.
- In lessons where internet use is pre-planned, I will ensure that pupils are guided to sites checked as suitable for their use.
- I will take immediate action in line with school policy if an issue arises in school that might compromise learner, user or school safety or if a child reports any concerns.
- I will monitor learner behaviour online when using technology and deal with any issues that arise.
- I understand my role in ensuring pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations.

Research and Recreation

- I will not upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others.
- I will be vigilant with my personal use of school ICT equipment.

Communicating and Sharing

- I am aware that any communication could be made public as part of a Data Protection Subject Access Request and I will ensure professionalism at all times and will not use language or phrases that I am not prepared to be made public.
- I will communicate, for all school related business, using work related/official school e-mail accounts.
- Digital communications with pupils (email / Virtual Learning Environment / voice) should be on a professional level and only carried out using official school systems.
- I will not use IM / social networking sites to communicate with pupils.
- I will not use IM / social networking to communicate with parents about school business.
- I will not access, copy, remove or otherwise alter any other user's files, without their permission.
- I will ensure that I have permission to use the original work of others in my own work and will credit them if I use it. Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that staff are allowed to take digital / video images to support educational aims, but those images should only be taken on school equipment.

- Therefore, I will not use my personal mobile phone to take photos of children.
- I will only take images or video of pupils/staff where it relates to agreed learning and teaching activities and will ensure I have parent/staff permission before I take them.
- If these are to be published online or in the media I will ensure that parental / staff permission allows this by checking against GDPR compliant permissions as obtained by the school.
- Where these images are published (e.g. on the school website) I will ensure it is not possible to identify the people who are featured by name or other personal information.
- I will not use my personal equipment to record images / video of pupils unless the content relates directly to an immediate family member.
- I will not keep images and videos of pupils stored on my personal equipment unless the content relates directly to an immediate family member.

Problems

- I will immediately report any suspected misuse, illegal, inappropriate or harmful material or incident I become aware of to the Safeguarding Officer for investigation / action / sanction
- If I believe a young person may be at risk I will follow the child protection procedures.
- Any incidents will then immediately be reported to the ESW IT Manager, and the ESW Risk Manager if there has been a personal data breach.
- If I believe a young person may be being bullied I will follow the anti-bullying procedures.
- I will not download, install or store programmes on a computer without obtaining permission from the ESW IT Manager.
- If these downloads or programmes include creating usernames and use of personal or any type of identifiers I will ensure I check this with the ESW IT Team and ESW Data Protection Lead that these are GDPR compliant.
- I understand that computer settings are locked down for a reason and I will not try to alter these settings or circumnavigate these restrictions.
- Any filtering issues should be reported immediately to the IT Services Team.
- I will immediately report any damage or faults involving equipment or software, however this may have happened to the ESW IT Team.
- I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
- I will not open emails from unknown or suspicious sources and I will ensure I contact IT Services regarding any suspicious emails, links in emails, or attachments.

I understand that these rules are in place to enable me to use ICT safely and that if I do not follow them I may be subject to disciplinary action. I agree to use IT by these rules when:

- I use school ICT systems at school or at home when I have permission to do so
- I use my own ICT (including mobile phone when allowed) in school
